- PH Insulation's traffic swinging doors are designed to separate premises with intensive traffic of personnel. The factory-made doors are ready for installation in supermarkets, restaurants, hospitals, food production facilities, etc.
- PH Insulation's doors with gravity hinges are set up faster with less adjustment compared to fixating hinges, need less maintenance and provide for increased dimensions of light opening.
- PH Insulation's traffic doors are not meant to completely seal the opening due to technical clearance gaps along the perimeter between the frame and the door leaf.
