Our doors are available in custom sizes to insure best commercial application

Please notice that the lock comes as a separate option, and it's price is calculated separately

- **Core:** rigid polyurethane foam by Dow Chemical
- **Foam Density:** 50 kg/m³
- **Thermal conductivity:** 0,022 W/(m*k)
- **Exterior and interior metal, including door shoulders:** 0,5 mm thick galvanised steel, in RAL colours of your choice
- **Door shoulders metal:** 2 mm steel
- **The lock comes with key and emergency opener**
- **All doors are air-tight with factory installed rubber gaskets by leading European hardware manufacturers**
- Double gaskets are factory installed to all standard fire resistant doors
- Intumescent strip is factory installed to the door perimeter. The fireproof strip based on graphite material fills the gap between door blade and frame, if temperature exceeds 150 °C.
- **All SD EI are equipped with factory installed handles for heavy duty doors**
